R4 SURF

## Cobalt Surf System

Wake Surfing Technology.

Our revolutionary Cobalt Surf System that delivers the cleanest waves and best push on the water – exactly the world-class tournament-style waves the surf pros demand. The system includes 6 hard ballast tanks, a specifically-designed surf hull, surf drive engine options and the best-in-class SurfGate™ technology that shapes the perfect wave.

### Surfing Made Simple

- ☞ The core of system is simplicity of operation. Three easy steps to a superior surfing wave.
- ☞ Fill ballast tanks
- ☞ Set GPS directed cruise control to desired speed
- ☞ Select surf control left or right
- ☞ Throttle up and surf

### Hard Ballast

Your Cobalt surf boat has 6 hard ballast tanks and can have as much as 2300 pounds of ballast. The hard ballast tanks allow you to better scale the wake and wave for all ages and ability levels. Keep the weight even from side to side so your wake is clean on both sides.

### Surf Gate™

Surf Gate is the dominant surf technology in the industry – and for good reason. Using highspeed hydraulic actuators, Surf Gate creates an endless surf-able wave on either side of the boat. Just ask the pros – they'll tell you Surf Gate creates the longest, highest, cleanest and has the best push out there. Get back as far as you want or as close as you want.
